

PUSKAR GHIMIRE

Dubai, UAE | +971569317820 | ghimirepuskar0@gmail.com | [LinkedIn](#)

Full stack developer with 3+ years of experience in enterprise application development, database optimization, and end-to-end system implementation.

SKILLS

C#, .NET Frameworks, Web API, HTML, CSS, Bootstrap, Razor Views, SQL, MSSQL, MySQL, VBA, JavaScript, jQuery, React, Angular, REST API, AJAX, GIT, SVN, Jira, XUnit, Moq, Visual Studio, VS Code, MS Office, CI/CD, Azure, Docker, Agile, OOP, Design Patterns, Analytical, Organization, Problem Solving, Team Player, English, Nepali, Hindi

PROFESSIONAL EXPERIENCE

.NET Developer

Nimble Infosys - Kathmandu, Nepal | Dec 2022 – Apr 2025

- Developed a **CRM** system supporting end-to-end customer onboarding, follow-ups, and payment traceability for administrative transparency and data tracking.
- Designed **report engine** for dynamic report registration **using stored procedure**, which allowed creating custom table, grids and chart reports that can also be added as widgets in dashboard.
- Integrated **MySQL and MSSQL** databases using linked server and **OPENQUERY** for scheduled data transfer from Ticketing platforms and ERP system to ensure seamless data synchronization and history tracking.
- **Optimized complex stored procedures** like payroll generation, attendance calculation reducing load time by 70%.
- Developed and automated financial reports TTUM, Nav Vouchers, TAX Certification, Appraisal, Attendance, and Consolidated fixed assets reports that required **multiple pivoting** and row level data transformations.
- Created **Restful APIs** for HR data access by third party systems.
- Automated real-time workflows (notifications) with Hangfire to improve system reliability during peak hours.
- Implemented **QR code and VCARD** generation features to streamline digital data sharing of employee records.
- Co-developed a **CI/CD pipeline**, reducing deployment time by 80% managing server deployment processes and contributed to operational reliability and smooth system changes.
- Developed responsive UIs using HTML, CSS, Bootstrap, **jQuery, and AJAX** and helped reduce UI issues by 40%.
- **Implemented unit tests** for critical business logics and helped QA to understand and create the test cases.
- Delivered **end-user training on ERP and FIMS system** also provided continuous support after deployment enabling effective change adoption and resolved live issues rapidly.
- **Mentored junior developers and QA** by conducting code reviews, explaining code and SP logic for new features and system changes, also led weekly knowledge-sharing sessions to foster continuous learning.

EDUCATION

Bachelor in Computer Engineering | Himalaya College of Engineering – Lalitpur, Nepal | 2018 – 2023

PROJECTS

Cataract Detection App

- Developed an android app that detected the cataract in eye by analyzing the image through image classification techniques (Python, Flutter, Flask server).

Ticket Management System

- Designed a ticket management system that auto assigned the ticket based on the expertise of support engineer and ticket type (.NET Core, SQL, Bootstrap, jQuery).

Expense Tracker

- Daily income/expense tracking system with data analytics and dashboard (.NET Core, SQL, Chart.js, jQuery).
